INVITATION FOR PARTNERSHIP

On behalf of SBUR Leadership, it is my pleasure to invite your support and participation at the 31st Annual Meeting of the Society for Basic Urologic Research. This year's meeting will take place November 9-12, 2023 at the Gunter Hotel San Antonio, Texas.

The Society for Basic Urologic Research is a society of scientists whose expertise includes the study of urologic cancers (prostate, bladder, kidney, testis, penis), the biology of prostate growth, kidney and bladder function, autoimmune, urologic diseases, infectious diseases, neuro-urologic diseases, male reproductive biology, infertility and erectile dysfunction. Members include molecular biologists, immunologists, epidemiologists, oncologists, biochemists and clinical urologic scientists. SBUR members serve on a wide variety of advisory panels, study sections, editorial boards, and in the pharmaceutical industry.

SBUR Meetings are held to advance urology research, to share new findings at a multidisciplinary level, promote interaction among members and scientists, and to highlight new areas for research. Industry partners and technical exhibits are an essential part of our meetings' success. Support packages can be customized to deliver your message-whether you wish to participate with an exhibit booth, educational grant or sponsorship. We work in partnership with you to develop the best plan that aligns with your organization's objectives, strategies and budget. Our attendees will be eager to learn about your company's products and services that can assist them in improved care for their urology patients.

Thank you for your consideration of our request for participation; we look forward to receiving your commitment. If you have any questions, please contact Tyler Gillespie; Tgillespie@veritasamc.com or 847-920-6573.

Kind regards,

Tyler Gillespie
Account Manager, Industry Relations

PARTNERSHIP OPPORTUNITIES

The Society for Basic Urologic Research (SBUR) meeting offers industry sponsors an opportunity to reach clinicians on the latest urologic techniques and products. This focused meeting environment is ideal for businesses dedicated to delivering products and services that support these conditions. This forum will allow you to interact with clinicians eager to learn about new technologies and innovations that aim to improve patient care.
